Matter and Motion is written in the perspective of the founders of modern science: the belief that God is the Creator of the universe and the Originator of its order, reason, and reality, and that science is one way for man to control and master the physical world for the benefit of mankind. Students begin their study with a section on astronomy, in which they learn how the heavens proclaim the glory of God.

A step-by-step program that shows parents, simply and clearly, how to teach their child to read in just 20 minutes a day.

Biology: A Search For Order In Complexity is a classic text originally developed by the Creation Research Society, now updated and available for your student in a full-color edition, beautifully photographed and illustrated. This hardbound text contains a thorough presentation of biological concepts and is scientifically accurate and true to six-day/young earth creationism. Grades 10-12.

Shows how to get the best from various types of microscopes, and suggests projects which reveal the detail of everyday objects.

Winner: Parents' Choice "Doing and Learning" Award For those who find the human body to be a fascinating biological machine, look no further! Embark on a voyage of discovery through the human body, based on the classic work by Henry Gray. Children and adults will enjoy learning about the various systems of the body and their particular functions. Then they can get creative, coloring in the detailed illustrations of those systems. With more than 85 illustrations to color, it's easy to understand what goes on inside you!

Much-Afraid had been in the service of the Chief Shepherd, whose great flocks were pastured down in the Valley of Humiliation. She lived with her friends and fellow workers Mercy and Peace in a tranquil little white cottage in the village of Much-Trembling. She loved her work and desired intensely to please the Chief Shepherd, but happy as she was in most ways, she was conscious of several things which hindered her in her work and caused her much secret distress and shame. Here is the allegorical tale of Much-Afraid, an

every-woman searching for guidance from God to lead her to a higher place.

This unique resource offers activities in earth, life, and physical science as well as science inquiry and technology. The Grades 6-12 level book provides labs on life, physical, and earth science as well as critical thinking. Like real-life forensic scientists, students observe carefully, organize, and record data, think critically, and conduct simple tests to solve crimes like theft, dog-napping, vandalism and water pollution. For added fun, each resource features an original cartoon character, Investi Gator for the Elementary level and Crime Cat for Grades 6-12. All activities include complete background information with step-by-step procedures for the teacher and reproducible student worksheets. Whatever the teacher's training or experience in teaching science, Crime Scene Investigations can be an intriguing supplement to instruction.
