AP Statistics Multiple-Choice Practice Questions ...
Well, let's see. We have a total of 20 snowy days and we are delayed 12 of those 20 snowy days, and so this is going to be a probability, 12/20 is the same thing as, if we multiply both the numerator and the denominator by five, this is a 60% probability, or I could say a 0.6 probability of being delayed when it is snowy.
