(PDF) Solution Manual Fundamentals of Database Systems 7th ...  
Due to the proliferation of database applications, the integration of existing databases into a distributed or federated system is one of the major challenges in responding to enterprises' information requirements. Some proposed integration techniques aim at providing database administrators (DBAs) with a view definition language they can use to build the desired integrated schema.

Model independent assertions for integration of ...  
Abstract. This chapter presents a view of data models and their development. It outlines the basic problem of data modelling in the database context, data model concepts and terminology, a taxonomy of data models, research issues central to data models, and those issues of particular interest in current research.
