Inspired by the turbulent events of post-2016 presidential election America, Dinesh D'Souza's Death of a Nation reveals an eerie similarity between the situations faced by President Trump now and the situations faced by President Lincoln in 1860. The film demonstrates how Trump can use the example of Lincoln to shut down the Democratic plantation once and for all.

Now a major motion picture! Who is killing America? Is it really Donald Trump and a GOP filled with white supremacists? In a major new work of historical revisionism, Dinesh D'Souza makes the provocative case that Democrats are the ones killing America by turning it into a massive nanny state modeled on the Southern plantation system. This sweeping alternative history of the Democratic Party goes back to its foundations in the antebellum South. The slaveholding elite devised the plantation as a means of organizing labor and political support. It was a mini welfare state, a cradle to grave system that bred dependency and punished any urge to independence. This model impressed northern Democrats, inspiring the political machines that traded government handouts for votes from ethnic immigrant blocs. Today's Democrats have expanded to a multiracial plantation of ghettos for blacks, barrios for Latinos, and reservations for Native Americans. Whites are the only holdouts resisting full dependency, and so they are blamed for the bigotry and racial exploitation that is actually perpetrated by the left. Death of a Nation's bracing alternative vision of American history explains the Democratic Party's dark past, reinterprets the roles of figures like Van Buren, FDR and LBJ, and exposes the hidden truth that racism comes not from Trump or the conservative right but rather from Democrats and progressives on the left.

Was 9/11 engineered and designed to allow the Bush administration to hijack America's democracy? Did fear mongering allow the US government to convince the American public that conducting huge, expensive wars in Afghanistan and Iraq was a necessary counter to defeat fabricated culprits in the Middle East? Was this all a plot to induce a financial boom that robbed the middle class of its wealth and brought the world to its knees in 2008? Examining the key players within America's government, as well as the states that supported and carried out the attacks, Death of a Nation attempts to reveal that 9/11 was falsely portrayed by the Bush administration, and in fact carried out by elements within the United States government and military to further their own geopolitical and financial interests. Death of a Nation provides a searing indictment of the role now played by America in global affairs and warns that, with a broken society and body politic, the world is seeing the rise of one of the most overtly fascist nations since the Second World War—creating profoundly disturbing implications for the future of humanity. A generation is coming of age that doesn't remember 9/11 happening, and knows of no world but this. We can't allow this to be the new normal. Death of a Nation will change your view of the events of 9/11 and force you to question America's self-appointed position as leader of the free world.

AUTOPSY OF AMERICA; The Death of a Nation is a harrowing look deep inside the crumbling apocalyptic

## Read PDF Death Of A Nation American Culture And The End Of Exceptionalism Critical American Studies

landscape of America through the eyes of Photojournalist Seph Lawless. Autopsy of America takes you through the tattered remnants of the United States of America in a way that you never seen before. The beautiful apocalyptic landscapes consisting of abandoned schools, factories, shopping malls, amusement parks, theaters, hospitals, sport arenas, homes even entire towns offer a visual diagnostic to some of the county's true ills. The captivating images are accompanied by Lawless' personal anecdotes and thought-provoking stories that are equally riveting as the images.

Assesses the impact of the enormous carnage of the Civil War on every aspect of American life from a material, political, intellectual, cultural, social, and spiritual perspective.

For courses in Capital Punishment, The Death Penalty, Policy Analysis/Policy Evaluation/Public Policy and Social Problems. Based on empirical evidence, Death Nation offers a fair and reasoned analysis of capital punishment as it is actually practiced in the United States. It includes a discussion of death penalty history, an analysis of the death penalty law and a discussion of various policy implications. Rather than present philosophical or moral arguments, it presents findings from a survey administered to dozens of capital punishment experts throughout the United States. Included in the book are fact check sections that analyze these expert opinions for accuracy based on available empirical evidence.

Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

Hundreds of thousands of individuals perished in the epic conflict of the American Civil War. As battles raged and the specter of death and dying hung over the divided nation, the living worked not only to bury their dead but also to commemorate them. President Abraham Lincoln's Gettysburg Address perhaps best voiced the public yearning to memorialize the war dead. His address marked the beginning of a new tradition of commemorating American soldiers and also signaled a transformation in the relationship

## Read PDF Death Of A Nation American Culture And The End Of Exceptionalism Critical American Studies

between the government and the citizenry through an embedded promise and obligation for the living to remember the dead. In *Death at the Edges of Empire* Shannon Bontrager examines the culture of death, burial, and commemoration of American war dead. By focusing on the Civil War, the Spanish-Cuban-American War, the Philippine-American War, and World War I, Bontrager produces a history of collective memories of war expressed through American cultural traditions emerging within broader transatlantic and transpacific networks. Examining the pragmatic collaborations between middle-class Americans and government officials negotiating the contradictory terrain of empire and nation, *Death at the Edges of Empire* shows how Americans imposed modern order on the inevitability of death as well as how they used the war dead to reimagine political identities and opportunities into imperial ambitions.

This fast-paced and timely book from Vijay Prashad is the best critical primer to the Middle East conflicts today, from Syria and Saudi Arabia to the chaos in Turkey. Mixing thrilling anecdotes from street-level reporting that give readers a sense of what is at stake with a bird's-eye view of the geopolitics of the region and the globe, Prashad guides us through the dramatic changes in players, politics, and economics in the Middle East over the last five years. "The Arab Spring was defeated neither in the byways of Tahrir Square nor in the souk of Aleppo," he explains. "It was defeated roundly in the palaces of Riyadh and Ankara as well as in Washington, DC and Paris." The heart of this book explores the turmoil in Iraq, Syria, and Lebanon—countries where ISIS emerged and is thriving. It is here that the story of the region rests. What would a post-ISIS Middle East look like? Who will listen to the grievances of the people? Can there be another future for the region that is not the return of the security state or the continuation of monarchies? Placing developments in the Middle East in the broader context of revolutionary history, *The Death of the Nation* tackles these critical questions.

This official tie-in to the highly acclaimed film, *The Birth of a Nation*, surveys the history and legacy of Nat Turner, the leader of one of the most renowned slave rebellions on American soil, while also exploring Turner's relevance to contemporary dialogues on race relations. Based on astounding events in American history, *The Birth of a Nation* is the epic story of one man championing the spirit of resistance as he leads a rough-and-tumble group into a revolt against injustice and slavery. Breathing new life into a story that has been rife with controversy and prejudice for over two centuries, the film follows the rise of the visionary Virginian slave, Nat Turner. Hired out by his owner to preach to and placate slaves on drought-plagued plantations, Turner eventually transforms into an inspired, impassioned, and fierce anti-slavery leader. Beautifully illustrated with stills from the movie and

## Read PDF Death Of A Nation American Culture And The End Of Exceptionalism Critical American Studies

original illustrations, the book also features an essay by writer/director, Nate Parker, contributions by members of the cast and crew, and commentary by educator Brian Favors and historians Erica Armstrong Dunbar and Daina Ramey Berry who place Nat Turner and the rebellion he led into historical context. The Birth of a Nation reframes the way we think about slavery and resistance as it explores the passion, determination, and faith that inspired Nat Turner to sacrifice everything for freedom.
