A faithful reproduction of the Factory Workshop Manual originally published by Floyd Clymer in 1967. This fully illustrated manual covers the 160cc, 250cc and 350cc narrow case, Single Cylinder, OHC series of Ducati motorcycles including the 160 Monza Junior, 250 Monza, 250GT, 250 Mark 3, 250 Mach1, 250 Motocross and the 350 Sebring. As expected from a factory publication, this manual includes complete technical data and comprehensive detailed instructions for the repair and overhaul of all major and minor mechanical and electrical components, making it an invaluable resource for collectors and restorers of these classic Ducati motorcycles. It contains a comprehensive Technical Specification section for every variant, by year, for each model followed by a descriptive section of all major components. Includes detailed repair and rebuild data for the Engine, Clutch, Transmission, Ducati and Marzocchi Forks, Rear Suspension, Wheels, Brakes and more. It also includes comprehensive information on the Electrical and Ignition Equipment plus Wiring Diagrams. There is adequate detailed text and illustrations to assist in major refurbishing such as an engine rebuild or even a complete mechanical renovation. An essential addition to any Ducati Motor Cycle Enthusiast's library, this book has been out-of-print and unavailable for many years and is becoming increasingly more difficult to find on the secondary market. This is a - must have - reference for this series of Ducati motorcycles and we are pleased to be able to offer this reproduction as a service to all Ducati enthusiasts worldwide.
