Today, organized labor is fighting for its very existence. They re using every weapon at their disposal - including every channel of communication, running corporate campaigns, and influencing politics and legislation with large donations. Their foot soldiers are waging an all-out war against corporate America, and the spoils of victory are your employees. In *Union Proof: Creating Your Successful Union Free Strategy*, Peter Bergeron, a 33-year veteran of labor relations and human resources, shares his experiences, offers advice and gives you the best practices that truly make a difference in remaining union-

free. Far from a legal text, Peter provides the practical tools and advice that can help you make union representation irrelevant within your organization. Peter J. Bergeron spent most of his 33+ years of service with General Dynamics, managing all areas of Human Resources with particular emphasis on Labor/Employee Relations and Union Avoidance. Most notably, Peter's primary successful union avoidance experience thwarted many large union organizing efforts at one of General Dynamics largest non-union production facilities. Peter was utilized by numerous General Dynamics business units throughout the country to lead counterorganizing efforts in campaigns ranging from as few as 13 to as many as 6,500 employees. Peter earned BA in Psychology from Villanova University and a MS in Systems Management from the University of Southern California."

The importance of customer service is widely emphasized in business today. This book offers the first comprehensive analysis of the organization and dynamics of front-line work. The volume is based on a four-year study of over a thousand employees and eight leading companies in the United States, Australia, and Japan. On the Front Line reveals similarities and differences found in work environments—such as variance in authority relations and division of labor—as well as significant contrasts between management approaches

used in Japan and those used in the United States and Australia. By examining how work differs among service, sales, and knowledge-based settings, it also shows how bureaucratic, entrepreneurial, and network forms of organization coexist in the informational economy. This seminal analysis of work in the service sector offers both a benchmark for consultants working with customer-contact organizations and valuable information for anyone concerned with the changing nature of work.
