Modified MasteringChemistry with Pearson eText -- Standalone Access Card -- for Introductory Chemistry: Concepts and Critical Thinking / Edition 7. by Charles Corwin | Read Reviews. Other Format. Current price is , Original price is \$113.32. You . Buy New \$113.32 \$ 113.32.

With an expanded focus on critical thinking and problem solving, the new edition of Introductory Chemistry: Concepts and Critical Thinking prepares readers for success in introductory chemistry. Unlike other introductory chemistry texts, all materials –the textbook, student solutions manual, laboratory manual, instructor's manual and test item file – are written by the author and tightly integrated to work together most effectively. Math and problem solving are covered early in the text; Corwin builds reader confidence and ability through innovative pedagogy and technology formulated to meet the needs of today's learners.

The Mastering platform is the most widely used and effective online homework, tutorial, and assessment system for the sciences. It delivers self-paced tutorials that provide individualized coaching, focus on your course objectives, and are responsive to each student's progress. The Mastering system helps instructors maximize class time with customizable, easy-to-assign, and automatically graded assessments that motivate students to learn outside of class and arrive prepared for lecture.

To help students learn chemical skills and concepts more effectively, Introductory Chemistry: Concepts and Critical Thinking, Sixth Edition highlights the connection between key concepts and key problem-solving skills through critical thinking. Math and problem solving are covered early in the text; Corwin builds your problem-solving ability through innovative learning aids and technology formulated to meet your needs. This revision retains all the strengths of the previous editions, while adding emphasis on conceptual understanding and critical thinking.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Emphasizing environmental considerations, Corwin's acclaimed lab manual offers a proven format of a prelaboratory assignment, a stepwise procedure, and a postlaboratory assignment. More than 300,000 students to date in Introductory Chemistry, Preparatory Chemistry, and Allied Health Chemistry have used these "bullet-proof" experiments successfully. The Sixth Edition features a completely updated interior design, new environmental icons denoting "green" features, updated prelabs, and much more. Corwin's lab manual can be packaged with any Pearson Intro Prep Chemistry book.

For one-semester courses in Basic Chemistry, Introduction to Chemistry, and Preparatory Chemistry, and the first term of Allied Health Chemistry. This text is carefully crafted to help students learn chemical skills and concepts more effectively. Corwin covers math and problem-solving early in the text; he builds student confidence and skills through innovative problem-solving pedagogy and technology formulated to meet student needs.

For courses in introductory, preparatory, and basic chemistry. Integrated features, technology, and a reader-friendly voice inspire curiosity around chemistry With a renewed focus on critical thinking, conceptual engagement, and problem solving, this 8th Edition of the popular Introductory Chemistry: Concepts and Critical Thinking has been thoroughly revised to better engage today's readers, while equipping them with skills they need to succeed beyond introductory chemistry. Unique among introductory chemistry texts, this text and all of its supporting materials are written by sole author Chuck Corwin. His experience and passion guide readers as they build confidence through innovative pedagogy, technology, and features designed to appeal to contemporary readers. By presenting chemistry in a clear and interesting way, readers leave their first chemistry course with a positive impression and the desire to learn more. The 8th Edition has been updated and modernized with new, relevant examples, new features, and a revised design. Continuing with Introductory Chemistry: Concepts and Critical Thinking 's reader-friendly approach, Chuck added features such as A Closer Look to provide insights and offer examples of misconceptions, Helpful Hints to provide coaching where readers struggle most, and new chapter openers tied to elements in the periodic table to show readers the connections all around them. Also available with with MasteringChemistry(tm) MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students with powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective content and encourage critical thinking and retention with in-class resources such

as Learning Catalytics(tm). Students can further master concepts through homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions. Note: You are purchasing a standalone product; MyLab(tm)& Mastering(tm) does not come packaged with this content. Students, if interested in purchasing this title with MyLab & Mastering, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information. If you would like to purchase both the physical text and MyLab & Mastering, search for: 0134416805 / 9780134416809 Introductory Chemistry: Concepts and Critical Thinking Plus MasteringChemistry with eText -- Access Card Package, 8/e Package consists of: 013442137X / 9780134421377 Introductory Chemistry: Concepts and Critical Thinking, 8/e 0134473132 / 9780134473130 MasteringChemistry with Pearson eText -- ValuePack Access Card -- for Introductory Chemistry: Concepts and Critical Thinking, 8/e

For lab courses in introductory, preparatory, and basic chemistry. Prepare introductory chemistry students for laboratory and provide a safe experience Emphasizing environmental considerations, Corwin's acclaimed Laboratory Manual for Introductory Chemistry offers a proven format of a pre-laboratory assignment, a stepwise procedure, and a post-laboratory assignment. More than 500,000 students to date in Introductory Chemistry, Preparatory Chemistry, and Allied Health Chemistry have used these experiments successfully. The 7th Edition continues to evolve with increased sensitivity to environmental and safety concerns in the laboratory. Recycle icons in the margin of each procedure alert students to recycle chemical waste and "green chemical" indicators remind students to use the appropriate waste containers provided to dispose of chemicals. Corwin's lab manual can be packaged with any Pearson Intro Prep Chemistry book.
