Ensure that every student develops the maths, literacy and working scientifically skills they need to succeed with this skills-focused Pupil Book that contains a variety of activities, questions and real-world examples that are tailored to the Big Ideas and mastery goals of the AQA KS3 Syllabus. - Develop conceptual understanding with a variety of questions that require students to apply their knowledge to real-world scenarios. - Build working scientifically skills with various Enquiry activities matched to the AQA syllabus. - Test understanding and measure progress with factual recall questions developed around the ideas of Generalisations, Principles and Models. - Stretch knowledge and understanding with extend tasks linked to higher-order thinking skills - Compare, Evaluate and Predict. - Bridge the gap between Key Stages 2 and 3, with a focus on maths and enquiry skills and understanding scientific terminology. - Provides comprehensive support for non-specialist or less-confident teachers when used in conjunction with the online Teaching & Learning resources. Written in association with Sheffield Hallam University: The Science Education Team within Sheffield Institute of Education (SIOE), is one of the leading STEM education groups in Europe, with a worldwide reputation for knowledge exchange and research. SIOE leads national and international STEM education programmes covering curriculum and pedagogical design and development, widening participation to traditionally under-represented groups, and research in science education.

This volume offers teachers a resource of photocopiable exercises which are suitable for use with students at Key Stage 3 of the National Curriculum. The questions allow opportunities to assess performance between levels 3 and 8 in all strands of National Curriculum science. Additional material derived from the programmes of study is also included.

Deliver the new KS3 Science National Curriculum with confidence in this revised and updated Teacher Pack 1.

KS3 Science Complete Study & Practice (with online edition)

This unique and innovative revision guide is matched to the new programme of study for Key Stage 3 Science. It is specially designed to support all learning styles so that every student can achieve the best results.

This Lab Book can sit at the heart of any Key Stage 3 science course as it builds students' practical and enquiry skills ready for GCSE, and supports teachers in providing a rich practical foundation for GCSE and beyond. The Skills Appendix is particularly helpful for teachers and students alike. - Stella Paes, Former Head of AQA Science Qualifications Linked to the AQA KS3 Syllabus and GCSE specifications, this Lab Book will help to introduce and embed the skills and terminology that are needed for students to succeed in the required practical components of their GCSE (9-1) Science course. 12 fun, inspiring KS3 practicals, fully reviewed for safety by CLEAPSS. All the instructions students will need to perform these practicals. Writing frames for students to record their results and reflect on their work. Guidance to help students build confidence in key skills such as experimental design, recording and presentation of results, and evaluation of methods and data. A selection of questions to help Key Stage 3 students prepare for GCSE-style assessment. A Practical Skills Checklist so students can track the skills they have developed. Everything students need for the 12 key practicals in one Lab Book, eliminating the need for additional photocopying or printing off other pieces of paper (such as graphs). Comprehensive teacher and technician notes to help with delivery.
