This book presents 300 multiple choice questions covering the range of subjects trainee ophthalmologists need to know. The first third of the questions test students' understanding of the basic sciences;

Page 30/53

Access Free

Mcq

Ophthalmology
the remainder cover the clinical areas and present problems relating to anatomical sites. Included are groups of questions on glaucoma, motility, neuro-ophthalmology and systemic disease.

This series of multiple choice questions is based on the textbook
Common Eye Diseases

Page 31/53

Access Free

Mcq

And Their Management

(1985), also from

Springer-Verlag. The

questions have been

grouped to fit in with

the chapter headings in

the latter. Many of the

questions are supported

by expanded answers

but further information

should be sought in the

textbook. The format of

the questions has been

arranged so that the

Access Free

Mcq

Ophthalmology

number of true or false answers varies and we have taken pains to eliminate the ambiguities which tend to creep into multiple choice question papers. In compiling these questions, we have attempted to incorporate a number of key facts and it will be seen that these have occasionally been repeated for

Access Free

Mcq

Ophthalmology

emphasis. A surprisingly large amount of information is contained in questions and answers, and simply reading through both can be a useful learning experience in itself. The questions have been aimed at the medical student level but it is hoped that they may be of some value to general practitioners outside

Access Free

Mcq

Ophthalmology and

perhaps also to

postgraduates. The

computerised Kuder-

Richardson reliability

index, which measures

the consistency of a

student's performance,

has shown these

questions to be reliable

in assessing a students'

knowledge. A sample of

these questions has been

tested in another

Access Free

Mcq

Ophthalmology
medical school and we understand that students' marks there equate well with the results from essay questions.

Updated for its Second Edition, this question-and-answer review book offers a concise review of ophthalmology. It combines a review of basic ophthalmology with real-life clinical

Ophthalmology

cases and multiple-choice questions with answers and explanations. More than 400 clinical photographs, fluorescein angiograms, and CT, MRI, and ultrasound images help readers master this visually oriented specialty. This edition has over 100 new full-color illustrations. Focusing

Access Free

Mcq

Ophthalmology

on common diseases, the book covers all specialty rotations, plus key areas such as embryology, anatomy, pediatrics, plastics, and lenses. This edition includes new cases and information on new drugs, especially glaucoma drugs.

This book contains 300 multiple choice

Page 38/53

Access Free

Mcq

questions (MCQs), in the format of a single best answer (SBA) from four options, for undergraduate medical students preparing for the Duke Elder prize exam run by the Royal College of Ophthalmologists (RCOphth) annually. The content is organised in line with topics drawn from the

Access Free

Mcq

candidate information

pack provided by the

RCOphth. Each

question is

supplemented with a

detailed explanation of

the right answer as well

as explanations for the

alternative answers,

elucidating common

mistakes made by

students. These

explanations are

supplemented with

Access Free

Mcq

Ophthalmology

schematic diagrams which greatly aid understanding. There are 8 chapters focusing on topics outlined in the Duke Elder exam, each containing a set of 25 questions and answers. This allows us to cover the most commonly seen topics appearing in the exam. The book will also provide a full mock assessment which will

Access Free

Mcq

Ophthalmology

offer a unique opportunity for candidates to apply their knowledge in an exam context. The exam format is such that candidates must complete 90 MCQs in the space of 2 hours. Our mock will provide candidates with a 100 MCQ mock to be completed in the space of 2 hours 15 minutes.
