It is called responsive web

# Download Ebook Responsive Web Design

design when you use CSS and HTML to resize, hide, shrink, enlarge, or move the content to make it look good on any screen. Don't worry if you don't understand the example below, we will break down the code, step-by-step, in the next chapters:

*Responsive Web Design*

*Introduction - W3Schools*

Responsive web design (RWD) is an approach to web design that makes web pages render well on a variety of devices and window or screen sizes. Recent work also considers the viewer proximity as part of the viewing context as an extension for RWD. Content, design and performance are
