In 1989, after the Ayatollah Khomeini declared a fatwa against Salman Rushdie for writing *The Satanic Verses*, Fay Weldon published *Sacred Cows*, a pamphlet critical of the fundamentalist interpretation of the Koran. Weldon's pamphlet received a lot of attention on publication – mostly criticism of her perceived

‘Islamophobia’ – but Weldon set out to enforce the notion that no religion should have the right to issue threats and intimidation; no religion should hinder free expression. In *Sacred Cows*, Weldon criticizes all aspects of British society – Murdoch and the Sun’s page 3 girls; white, liberal complacency; problems with education and the NHS – and argues that the affront to Muslim people in Britain was not caused by publication of *The Satanic Verses* itself but rather by the ‘awfulness of the society we have allowed to grow up around us’. *The Satanic Verses* is remedy, according to Weldon, to a fractured, ailing society. Publishing literature like this proves that our society ‘may yet be well and our brave new God of individual conscience may yet arise’. 26th September 2008 marks the twentieth anniversary of the beginning of The Satanic Verses controversy - a controversy that in many ways became paradigmatic for the following two decades. Taking as its starting-point the opening two years of the controversy, Paul Weller uses the events and arguments of those years as a lens through which to view what later developed, both in relation to the controversy itself, but also its wider entails, and the incidents and issues through which aspects of the original controversy were reprised. The anniversary of the controversy presents a good opportunity to review the incidents, issues and debates of the time in some historical perspective, while also connecting them with subsequent incidents that have reprised some of the key themes, such as the 'cartoons' controversy, the terror attacks of 9/11 and 7/7, and the killing of the Dutch filmmaker,

Theo Van Gogh. The book holds up a mirror for our times that will be of interest to academics, politicians, students, and religious believers, as well as to all who are engaged with the twenty-first century challenges posed by living with radical difference, freedom of expression, and mutual respect, with exploring the relationship between religion and secularity, and with overcoming the threats posed by religiously informed violence.

Tax has rocketed to the top of the news agenda. When Amazon, Google and Starbucks were pulled up in front of the Public Accounts Committee, many were stunned at how little corporation tax they paid (if at all) in a time of austerity and government cuts. How can a tax gap of £12 billion be justified, when a CEO can take home \$101 million a year? There is a growing realization that

maybe we aren't 'all in this together', and what are Google's 'Dutch sandwich' and a 'double Irish' anyway? In this 30,000-word ebook Richard Murphy, a highly respected economic commentator and blogger, explains how we came to this situation, its origins and development after the 2008 economic crisis, who the villains of the piece are, and why. But this ebook also seeks answers and Murphy offers concrete and practical solutions in the face of growing public awareness, which politicians and companies will ignore at their peril as taxpayers vote with their feet. This is the first substantial study in Christian Ethics to explore the problem of religion, plurality, and ethics. Why, asks the author, do different religions find it so hard to coexist together? In answering this question, the book ranges widely: culture, ethical method, the Christendom Group of T.S. Eliot, immigration, Rushdie and Islam, Bellah and "civil religion," Neuhaus and "public philosophy," MacIntyre and Milbank, the nature of truth and morality, and the political implications of postmodernism are all discussed.

Salman Rushdie is a major contemporary writer, who engages with some of the vital issues of our times: migrancy, postcolonialism, religious authoritarianism. This Companion offers a comprehensive introduction to his entire oeuvre. Part I provides thematic readings of Rushdie and his work, with chapters on how Bollywood films are intertextual with the fiction, the place of family and gender in the work, the influence of English writing and reflections on the fatwa. Part II discusses Rushdie's importance for postcolonial writing and provides detailed interpretations of his fiction. In one volume, this book provides a stimulating introduction to the author and his work in a range of expert essays and readings. With its detailed chronology of Rushdie's life and a comprehensive bibliography of further reading, this volume will be invaluable to undergraduates studying Rushdie and to the general reader interested in his work.

Through interviews with leading writers (including Ahdaf Soueif and Hanif Kureishi), this book analyzes the writing and opinions of novelists of Muslim heritage based in the UK. Discussion centres on writers' work, literary techniques, and influences, and on their views of such issues as the hijab, the war on terror and the Rushdie Affair.

In *The Meaning of Race*, Kenan Malik throws new light on the nature and origins of ideas of racial difference. Arguing that the concept of 'race' is a means through which Western society has come to understand the relationship between humanity, society and nature, the book re-examines the relationship between Enlightenment thought and racial discourse, clarifies the nature of

scientific racism, and presents a critique of postmodern theories of cultural 'difference'.
