The manual says its a Talon GX150iir on the front but it says a GX125iir on the inside? Previous owner i am pretty sure said it was a 150cc. Its 5 yr old and in great shape. Hardly been used he told me maybe 20 hours. Any ideas lads thanks? jwk Initiated Posts: 26 Joined: Wed Jun 13, 2012 10:55 pm Location: Previously Northern Ireland now Indiana. Top. Family Go Karts

We do not have all manuals as we do not carry all parts for all models. We only carry parts for the 150 models and some parts for the 250 / 300. You can use the manual to find the part number and use the search function of this website to find your parts. If you can not find the part number, there's good chance we don't have the parts you are looking for. Carter Brothers Talon 150 DLX / FX ...

Carter Talon 150 Wiring Diagram

I was reading the online Carter manual on the Talon 150, and noticed that the valve clearance should be between 0.08-0.12mm. This sounds quite high, compared to the suggestion of 0.05. Which is the best to use, when it comes to this? Thanks again for all of the info., I am new at buggy repairs. For one thing, I didn't know the GX150iir's stock gearing was a 32 tooth axle sprocket. I would have guessed it would be a 31 like Blade's, or a 16 39 like mine, only having the new transmission gears in the GY6 for more speed? I further liked your comment on how when changing over from 32 to 39 tooth axle gear, that "This also helped climbing tremendously". I have never driven a 150cc buggy ...

For Semi-auto and Manual Transmission Engines, please do start at Neutral. 3. Check lubricating oil level and fuel level regularly. Make sure they are sufficient and not leaked. 4. Please do not accelerate until it has warmed up for 1-3 minutes if cooler start engine. 5. All new engines need a initial run-in time. Because the surface of the parts is not that smooth, they need a time to run-in ...
