The modern living room is an open space. Living room tiles for a bright, dynamic, and multi-function living experience, with spaces that flow into one another. Living spaces that break boundaries, without walls or partitions dissecting the environment. Often the living area includes the kitchen or merges with the outdoors and incorporates it.

Villa Puglia is a modern retreat in the Italian countryside. It is designed by Studio Toff - and is now for sale. Italian design gets a Scandi twist at Villa Puglia - a rustic farmhouse renovated by Studio Toff as a sleek monochrome retreat. Located in the picturesque Valle d'Itria, next to Ceglie, the former farmhouse and agricultural buildings have been revived as a three-bedroom villa and guesthouse by the Dutch practice, which specialises in adaptive reuse and renovation projects.

The Spaces is a digital publication from VF Publishing exploring new ways to live and work. From residential buildings to public domains, co-working clubs to hotels and retail hot spots, we will look at the spaces that are pushing boundaries and meet the people who are changing how we live. Exploring the rich urban fabric of cities across the world, we want to inform and spark new conversations about design and property while inspiring people to look at their environments differently.

Analysed based on its components, the shopping center has a leasable area of 45,000 sqm, while the first stage of the office project has 15,000 sqm. As a result of these deliveries, the total stock of modern retail spaces in Romania reached 4.03 million square meters, reflecting an average density of 200 sqm / 1,000 inhabitants. The stock includes shopping centers (57% of spaces), retail parks (36%) and shopping galleries (7%).

It historicizes the contemporary discussion of urbanism, highlighting the local and global breadth of the city landscape. This interdisciplinary collection examines how the city develops in the interactions of space and imagination. The essays focus on issues such

as street design in Vienna, the motion picture industry in Los Angeles, architecture in Marseilles and Algiers, and the kaleidoscopic paradox of post-apartheid Johannesburg. They explore the nature of spatial politics, examining the disparate worlds of eighteenth-century Baghdad, nineteenth-century Morelia. They also show the meaning of everyday spaces to urban life, illuminating issues such as crime in metropolitan London, youth culture in Dakar, "memory projects" in Tokyo, and Bombay cinema.

As stories of borders, territorial disputes, and migration have escalated in recent years, so too space has emerged as a critical concept in theoretical literature. This book explores the imagination of space at the dawn of modern, liberal theology in the writings of Friedrich Schleiermacher. Schleiermacher wrote against the backdrop of expanding European colonialism and nationalism, providing a powerful ethics of space for a rapidly shrinking planet. Selectively appropriated, Schleiermacher's spaces of modern theology can be a valuable contribution to contemporary attempts to theorize the importance of space and place in human geographies.

Healing Spaces, Modern Architecture, and the Body brings together cutting-edge scholarship examining the myriad ways that architects,

Read Free The Spaces Of The Modern City Imaginaries Politics And Everyday Life Publications In Partnership With The Shelby

urban planners, medical practitioners, and everyday people have applied modern ideas about health and the body to the spaces in which they live, work, and heal. The book's contributors explore North American and European understandings of the relationship between physical movement, bodily health, technological innovation, medical concepts, natural environments, and architectural settings from the nineteenth century through the heyday of modernist architectural experimentation in the 1920s and 1930s and onward into the 1970s. Not only does the book focus on how professionals have engaged with the architecture of healing and the body, it also explores how urban dwellers have strategized and modified their living environments themselves to create a kind of vernacular modernist architecture of health in their homes, gardens, and backyards. This new work builds upon a growing interdisciplinary field incorporating the urban humanities, geography, architectural history, the history of medicine, and critical visual studies that reflects our current preoccupation with the body and its corresponding therapeutic culture.

"Designed for a one-year course in topological vector spaces, this text is geared toward beginning graduate students of mathematics. Topics include Banach space, open mapping and closed graph theorems, local convexity, duality, equicontinuity, operators, inductive limits,

and compactness and barrelled spaces. Extensive tables cover theorems and counterexamples. Rich problem sections throughout the book. 1978 edition"--

City studios, tiny suburban dwellings, compact houses: today, more people than ever are living small. To maintain these trim, contemporary residences in fine style, you need the newest storage devices and the cleverest space-saving solutions. That's what you'll find right here, in an indispensable guide to managing clutter, generating the illusion of space, and accessing your priorities so you use every inch effectively. The ideas are many and fresh, from cupboard hideaways to new loft areas. Every room is covered, with information on design layout and planning, and a "recipe" for success. Checklists throughout help you keep track of every step. "The wealth of sharp color photos and practical hints makes this an attractive, useful resource for anyone facing an interior design project."--Booklist

Hailed by the Wall Street Journal as a "juicy little time bomb of a book", *Privately Owned Public Space: The New York City Experience* examines for the first time, New York City's 39-year mixed experience with the production of more than 500 plazas, parks, and atriums

located on private property yet by law accessible to and usable by the public. Until now, comprehensive, systematic knowledge about this vast collection of public spaces has not existed, either for experts or members of the public. To remedy this gap, Harvard University professor Jerold S. Kayden, The New York City Department of City Planning, and The Municipal Art Society of New York have joined forces to research and write *Privately Owned Public Space: The New York City Experience*. Through words, photographs, scaled site plans, maps, and analysis of newly assembled data, they examine history, law, design, and use of the city's privately owned public spaces. Each of the more than 500 spaces is individually discussed to provide far-reaching comparative information about this unique category of public space. In reading this book, designers, planners, lawyers, and academics will gain greater understanding about the possibilities and problems inherent in the design, management, and enforcement of privately owned public space. Public officials, private owners, and civic group representatives will learn more about their roles in ensuring public access and vitality of such spaces. Individuals will discover where New York City's public spaces are located and what amenities they offer. Everyone will comprehend more completely the contribution that privately owned public space can make toward open and attractive cities in which all individuals have access to a diversity of public

a quilted throw you make yourself, or re-upholster that vintage chair find with fabric that brings it back to life! & break; & break; All these projects and more can be found on the pages of Joel Dewberry's Sewn Spaces. In addition, Joel gives you the tools you'll need to get started. You'll find techniques at the front of the book, templates at the back, and full-size patterns on a convenient tear-out insert. & break; & break; Fabric can enhance, even transform, any of the living spaces you find yourself in each day. So go ahead - sew your own space!

Where have all the fishballs gone? From a journalist deeply attuned to the subtleties of Hong Kong life comes Borrowed Spaces, a chronicle of the ways in which the grassroots citizens of Hong Kong reshape their city to make up for the shortcomings of their bureaucratic government. Mango trees sprouting on roundabouts, fishball stalls and neon signs: these are just some of the Hong Kong icons that are casualties in the struggle to reclaim public spaces. Christopher DeWolf explores the history of Hong Kong's urban growth through the daily tug of war between the people's needs to express themselves and government regulations.

"Grass is pass," says veteran landscape designer Keith Davitt. He goes

Read Free The Spaces Of The Modern City Imaginaries Politics And Everyday Life Publications In Partnership With The Shelby

beyond the traditional lawn in this book, now in paperback, in which he offers a number of fresh, new ideas for transforming front and backyards into sanctuaries that pack plenty of curb appeal and offer a hideaway for you and your family and friends. This refreshing book offers myriad ideas for nontraditional outdoor spaces that are as beautiful as they are low maintenance. You'll discover how to banish cutting, watering, and weed worries forever by creating lovely outdoor spaces that replace the traditional grass lawn with rock walls, sculptures, native grasses, mosses, wildflowers, and more. Davitt guides you through making design choices that suit your unique needs, such as determining which plants thrive in particular climates and soil conditions. He shows how to beautify your landscape with numerous materials and techniques, ultimately proving that it is possible to create a truly stunning garden without grass.
